

Architect

UAB "Kelprojektas" is one of the largest and most successful engineering companies in Lithuania with over 60 years of experience. It is also an international company and a member of the "Tyréns Group" operating in both Lithuanian and Swedish markets.

Our Architecture Business Unit has an excellent opportunity for an Architect, who has the necessary experience and qualifications in Landscaping and Building Architecture and is eager to work with Swedish team. The position will be based in Vilnius or Kaunas on a regular basis and in Sweden on a part-time basis.

This is an amazing career opportunity for the right candidate to work on a variety of exciting international projects, where the latter will collaborate with the Swedish team directly. Skills of the Lithuanian language is not required, and we are offering a hybrid work model. The candidate's place of residence must be in Lithuania.

REQUIREMENTS:

- 5 years or more of experience in landscaping/building architecture
- 5 years or more of experience on Revit
- Skills and abilities to further educate others (Revit)
- An ability to work partially in Sweden
- Fluency in spoken and written English
- The ability to work on a diverse portfolio of works
- A proven ability to manage projects and work under tight deadlines
- The ability to work on one's own initiative and proactiveness
- The ability to work in a team
- An interest in Sweden

ADDED VALUE:

- Degree in Architecture Engineering, Landscaping or Civil Engineering Design
- Skills and abilities to further educate others on AutoCAD/Civil3D (at least 5 years of experience)
- Some proficiency in Swedish
- Graphic skills in Adobe Illustrator, Photoshop and Adobe InDesign

SALARY:

2000 – 2800 EUR gross monthly salary, benefits, personal growth, and excellent working conditions in a welcoming office setting.
